We want to hear from you!

We are looking for parents of children with ASD between the ages of 18 months and 4 years old, who partner with TRICARE insurance.

What will happen?

- Your child will receive behavioral intervention from a professional specialist
- We will ask you questions about your child, including current behavioral programs, levels of achievement, and behavioral goals you may have for your child
- You may be offered opportunities to learn new strategies for your child
- You will be paid for filling out forms

Have questions, or want to learn more?
